MEMODANDUM

To: Mayor and Common Council
Prepared By: Stephen P. Compton, City Administrator
Date of Meeting: December 28, 2016

Subject: Sustainable Economic Development Report

Sustainability is important to encourage in every community. In Reedsburg, it is essential that we support sustainability. The City Mayor and City Administrator both feel that Baraboo River is under used as a recreational facility. Recently the City Administrator has been working with the City of Baraboo – River Support group to look at developing the Baraboo River Corridor Plan - Phase I and discussing Phase 2 which looks at the areas between the City of Baraboo and Reedsburg.

The economic and physical well-being of our citizens, businesses, and other organizations are dependent on our environment. Our city government is committed to becoming more sustainable every year. By using less paper, electricity, natural gas, diesel fuel, and gasoline, the city can save taxpayer money and reduce our impact on the environment. I urge everyone to consider how you can live more sustainable.
