

Reedsburg WI.
March 31, 2014

The Reedsburg Airport Commission convened in session on Monday March 31, 2014 at 8:00 am with the following members present: Polk and Friede.

Also Present: Steve Zibell and Brit Solverson.

Zibell presented to the commission an application for a 100' tower from Wisconsin Power and Light. Zibell stated the maximum height in this area is 955' and the proposed pole is 990'. Zibell also stated the pole was approved by the FAA. The committee felt the pole was too high and didn't see a reason it needed to be at the 990'. Motion by Friede seconded by Polk to deny the application and only allow the tower to be at an elevation of 955' with a light on top.

Motion Carried

Moved by Polk seconded by Friede to adjourn at 8:20 am.

Motion Carried.

Respectively Submitted,

Steven T. Zibell, Public Works Director/City Engineer
