

# Design Downtown Reedsburg

Please don't miss this opportunity to create a shared vision for the future of Reedsburg's downtown. The University of Wisconsin - Extension offers a Community Design Program that can bring a team of planning and design professionals to our community to help us develop and realize a vision for downtown Reedsburg. This is a high-value, grass-roots, hands-on placemaking planning program. To qualify, Reedsburg must demonstrate broad community interest. If you are invested in the future of Reedsburg's downtown, your participation in this December 13<sup>th</sup> meeting is critical.

**The Design Wisconsin Team** is a community design program based on a successful Minnesota model offered by the University of Wisconsin-Extension's Community Vitality & Placemaking research team.
